## **DETAILED ACTION**

1. Information Disclosure Statement filed on 10/8/03 has been received.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 3, 7, and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 99/54157.

See figure 7 and pages 10 and 11 of the specification.

### ***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 2, 4-6, and 9-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 99/54157.

Regarding claim 2, 4, 5, and 9-11, WO 99/54157 is relied upon as above. WO 99/54157 does not disclose various design details claimed. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have the various design

details claimed as such is merely a design choice. These details have a insignificant impact on the functioning of the device.

Regarding claim 6, WO 99/54157 is relied upon as above. WO 99/54157 does not disclose crimping at 4 locations. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have the collar crimped at 4 locations as such is merely a design choice.
